

PYRO_STAG

A new concept of De-Icing control

The ultimate controller for industrial, commercial and residential

Works with any existing De-Icing system

Energy saving algorithm

Simple and quick installation

Simple, Logical & accessible user Interface

Sequencing between zones allowing larger area coverage with limited power supply

Modularity – 1 to 4 contactors

System Features

Steady power supply or

Sequencing\Staggering between zones

Sequencing\Staggering - 1 > 2 > 3 > 4 or 1+3 > 2+4

Adjustable Cycle time between zones

Off Delay Time - Adjustable in cycles count

Adjustable OFF Delay cycles

verride operation – activates the system

CTU Information

24VAC operated

DIN RAIL or screws wall mounting

Dimensions: 8 x 4 x 2 inches (205 x 96 x 60 mm)

Weight: 1 lb. (0.545 kg.)

Flammability UL94V-0

IP 20
